

REMARKS/ARGUMENTS

The claims have been amended to remove all noted 35 USC 112 problems, as pointed out by the Examiner as well as any similar problems.

No new matter is added by this submission.

The Examiner has stated claims 1-16 would be allowable if rewritten or amended to overcome the rejections under 35 USC 112, 2<sup>nd</sup> paragraph.

Claims 1-16 remain in this application.

In response to the Office Action of October 8, 2003, Applicant requests re-examination and reconsideration of this application for patent pursuant to 35 U.S.C. 132.

**Rejections under 35 USC 112**

In the Office Communication mailed on August 10, 2005, the Examiner rejected Claims 1 through 16 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The Examiner states that the claims are replete with lack of antecedent basis errors and general indefiniteness. The Examiner sets out claim 1 as an example of such occurrences. The claim preamble has been amended to read "A self-fastening wall cabinet comprising" to remove any ambiguity resulting therefrom.

In addition, the claims have been amended to remove all noted and similar problems, as pointed out by the Examiner. Accordingly, withdrawal of this ground of rejection is respectfully requested.

SUMMARY

In light of the foregoing remarks and amendment to the claims, it is respectfully submitted that the Examiner will now find the claims of the application allowable. Favorable reconsideration of the application is courteously requested. Should there be any remaining issues which can be resolved via an Examiner's Amendment, the Examiner is urged to call the undersigned in order to expedite the prosecution of this application.

Respectfully submitted,
